

IHE Performance Reports

2003-04

Public Schools of North Carolina

State Board of Education * Department of Public Instruction
Division of Human Resource Management

In compliance with federal law, including the provisions of Title IX of the Education Amendments of 1972, NC Public Schools does not discriminate on the basis of race, sex, religion, color, national or ethnic origin, age, disability, or military service in its policies, programs, activities, admissions or employment. Inquiries or complaints should be directed to:

Office of Curriculum and School Reform Services
6307 Mail Service Center
Raleigh, NC 27699-6307
Telephone (919) 807-3761; fax (919) 807-3767

PREFACE

This is the sixth IHE Performance Report issued by the State of North Carolina. Separate reports are being issued for undergraduate programs, graduate programs, and school administration programs. Every effort has been made to ensure the accuracy of the data reported.

Reports on individual institutions are available on the Department of Instruction website at <http://www.ncpublicschools.org/IHE/IHE04/>. As appropriate, separate reports on undergraduate programs, graduate programs, and school administration programs are included for each institution.

A definition of the terms used is contained at the end of this section of the Summary Report.

GRADUATE TEACHER EDUCATION PROGRAMS

Graduate Teacher Education.....	47
Quality of Students Entering the Programs	47
Graduate Teacher Education Program Admission Requirements	47
Quality of Students Completing the Programs	51
Employment and Program Satisfaction	53
Rewards and Sanctions	55
Graduate Program Completer Surveys	56

SCHOOL ADMINISTRATION PROGRAMS

Quality of Students Entering the Programs	59
School Administration Program Admission Requirements.....	59
Quality of Students Completing the Programs	62
Employment and Program Satisfaction	64
Rewards and Sanctions	66
Graduate Program Completer Surveys	67

LIST OF TABLES

Table	Page
I. Programs Offered by Each IHE.....	2
II. Number of Teacher Education Faculty	8
III. Lateral Entry Teachers Served.....	10
IV. Individuals with Degrees from each IHE Employed in the Public Schools	12
V. Top 10 LEAs Employing Graduates of Each IHE	13
VI. Enrollment in Undergraduate Teacher Education Programs, Fall 2003.....	19
VII. Undergraduate Admission Test Data	20
VIII. Length of Time to Program Completion (Undergraduate)	23
IX. Praxis Performance of Undergraduate Program Completers.....	25
X. Number of Student Teachers Licensed and Employed	34
XI. Undergraduate Program Completer Survey Results	36
XII. Enrollment in Graduate Teacher Education Programs, Fall 2003.....	49
XIII. Graduate Admission Test Data	50
XIV. Length of Time to Program Completion (Graduate)	52
XV. Graduate Program Completer Survey Results	54
XVI. Enrollment in School Administration Programs, Fall 2002.....	60
XVII. School Administration Program Admission Data	61
XVIII. Performance on the School Leaders Licensure Assessment (SLLA)	63
XIX. School Administration Program Completer Survey Results	65

TEACHER EDUCATION IN NORTH CAROLINA

An Overview

North Carolina has 46 approved Teacher Education Programs. All 46 offer undergraduate programs leading to initial teacher licensure; 27 offer graduate level programs leading to master's or doctoral level licensure; 14 offer school administration programs. While the specific course requirements vary from institution to institution, each approved program of study has been judged to be in compliance with the standards and indicators prescribed by the State Board of Education for the specialty area. On-site reviews of approved teacher education programs are conducted every seven years. The reviews are typically a joint venture between the North Carolina Department of Public Instruction and the National Council for Accreditation of Teacher Education (NCATE). Team members have been trained in the program review process. The DPI team members are internal to the state; the NCATE team members are external to the state. DPI team members review individual specialty (licensure) areas; NCATE team members focus on the program as a whole (referred to as the unit). In addition to reviewing the reports prepared by the institution for the visits, team members examine course syllabi, handbooks, and samples of student work, visit clinical sites, observe university classes, tour campus facilities, and interview current students, recent graduates, faculty, administrators, support staff, and public school personnel. Both teams focus on curriculum, student quality, faculty, governance, and resources. Reports of the on-site reviews, as well as the performance of students on the Praxis exams, the performance of graduates in the Initial Licensure Program, and the licensure of methods faculty are considered by the State Evaluation Committee on Teacher Education (SEC). Recommendations are forwarded from the SEC to the State Board of Education which makes final program approval decisions.

Table I details the teacher education programs offered by each college/university.

LINKAGES WITH THE PUBLIC SCHOOLS

Faculty in institutions of higher education which prepare teachers are expected to be involved with the public schools in genuine ways that go beyond simply supervising student teachers and interns. This may include collaboratively designing curricula for public schools students and teacher education programs, formalized partnerships, grant activities, service on boards and committees, providing assistance for beginning teachers, assisting lateral entry teachers seeking licensure, conducting/sponsoring professional development activities for inservice teachers, working with groups of public school students on campus or at the school site, sponsoring after-school programs for public school students, and providing diagnostic and screenings/testing for public school students. Information on the specific efforts of each institution to work collaboratively with the public schools is contained in the individual *Institutional Report* on the DPI website.

In evaluating the involvement of colleges/universities with the public schools it is important to consider that the number of teacher education faculty varies across campuses. **Table II** summarizes the number of teacher education faculty by college/university.

Table II: Number of Teacher Education Faculty

LATERAL ENTRY TEACHERS SERVED

Individuals who have not completed teacher education programs may be hired by local school systems as lateral entry teachers. To be eligible for a lateral entry license, individuals must have at least a bachelor's degree from a regionally accredited institution, a 2.5 cumulative grade point average, and an academic major related to the teaching assignment. Lateral entry teachers are issued individual programs of study based on review of their transcripts by a college or university with an approved teacher education program or one of the three Regional Alternative Licensure Centers (RALCs). Lateral entry teachers may affiliate with a college or university to clear licensure requirements or work through the RALCs to do so. **Table III** contains information provided by each institution on the number of lateral entry teachers seeking programs of study and enrolling in programs leading to licensure. Individual institutional reports, accessible on the Department's website, provide narrative information on each institution's efforts to serve lateral entry teachers.

Table III: Lateral Entry Teachers Served

EMPLOYMENT

Graduates of the 46 institutions with approved teacher education programs are employed in every LEA in the state. **Table IV** contains summary information on the number of individuals with degrees from each institution employed in the NC public schools during the 2003-04 school year. **Table V** reflects the top 10 LEAs in which individuals with degrees from each IHE are employed. It should be noted that:

1. In the case of individuals who completed licensure-only programs, the institution at which an individual earned a degree may not be the institution which eventually recommended the individual for licensure.
2. If an individual has earned degrees at more than one institution, he/she is counted in the totals for each institution from which a degree was earned.

DEFINITIONS USED

Baccalaureate Degree Program: A program that culminates in the awarding of a baccalaureate degree. Such programs may be five-year or extended programs that result in awarding of a baccalaureate degree.

Full-time Students: Undergraduate students taking a minimum of 12 semester hours or the equivalent; graduate students taking a minimum of 9 semester hours or the equivalent.

Lateral Entry/Provisionally Licensed: Individuals employed by public schools on lateral entry or provisional licenses.

LEA: Local Education Agency; the 117 school systems in North Carolina.

License Completer: Individuals who have completed programs of study leading to licensure **and** satisfied testing requirements prescribed by the State for the licensure area.

Licensure: The official recognition by a state governmental agency that an individual has met state-mandated requirements and, therefore, is approved to practice as a duly licensed educator in that state. Licensure is used synonymously with certification in many states.

Licensure-Only: Programs designed for individuals who possess the appropriate level degree to complete requirements to be issued a license.

Master's Degree Program: A graduate program for the advanced preparation of teachers or the initial or advanced preparation of other school personnel.

Part-time Students: Undergraduate students taking fewer than 12 semester hours or the equivalent; graduate students taking fewer than 9 semester hours or the equivalent.

Program: A sequence of courses and experiences in general, specialty, and professional studies required by a college/university for the preparation of professional education candidates to teach a specific subject or academic area, to provide professional education services (e.g., school psychology or counseling), or administer schools. A program area could be a major in education; it could also be a major, minor, or endorsement sequence in an academic area with professional education requirements for licensure.

Program Completers: Students who complete professional education programs in the institution. Such programs include those intended to prepare students for licensure; to culminate in a degree; to provide endorsement credentials; to provide professional development, or for other purposes. To complete a program does not necessarily mean licensure was obtained or a degree earned. See Program.
